MEET&BUILD 2023 - SPECIAL GUEST FRANCE

A WORD FROM THE FRENCH AMBASSY IN BELGIUM

The French Ministry for Europe and Foreign Affairs launched in 2021 a plan to support the export of the territory's cultural and creative industries. In this context, the French Embassy in Belgium supports the development of several promising sectors, such as video games. Through the implementation of several operations, the Embassy wishes, with the support of the French Institute, to encourage French and Belgian professionals to discover their respective ecosystem, meet key players in the sector and forge new collaborations.
